DOCVERIFY — VERIFICATION REPORT

AI-Based Document Tampering & Forgery Assessment Certificate

VERDICT: GENUINE / AUTHENTIC

Risk Level: LOW RISK | Final Tampering Risk Score: **0.04%**

Document & Session Metadata

File Name:	alb_id_03.jpg	**Verification Date:**	2026-10-18 16:47
Document Template:	Identity Document (Albania) [alb_id]	**Image Resolution:**	2167 x 1360 px
Color Mode:	RGB	**Inference Device:**	CPU

Multi-Modal Evidence Breakdown

Evidence Source	Signal / Metric	Score / Finding	Contribution
Global CNN (EfficientNet-B0)	Full-image visual texture anomaly	29.9% Fake Prob	Primary Base Signal
High-Res Patch Verification	Local uncompressed field inspection	7.2% Fake Prob	Micro-forgery Recovery
OCR Text Extraction	Character recognition confidence	0.72 Avg Conf	Typography Consistency
Field Formatting Checks	Date & alphanumeric structure	Valid	Syntactic Prior
Multi-Modal Evidence Fusion	Calibrated logistic decision	**0.04% Risk**	**Final Decision**

Extracted Document Fields (EasyOCR)

Field Name	Extracted Text	Confidence	Status
surname	Aieti	0.86	Normal
name	Aeon	0.55	Normal
nationality	ShaiptarelAlbanian	0.89	Normal
birth_date	01-11-1972	0.71	Normal
expiry_date	06-11-2027	0.58	Normal
id_number	H21101743	0.84	Normal

System Reasoning & Explanation

• All visual texture, local field, and forensic indicators align with authentic document distributions.

LEGAL & RESEARCH DISCLAIMER: *This verification certificate was automatically generated by DocVerify, an academic research prototype. Results represent statistical inferences based on learned visual and typographical patterns. This report does not constitute a legally binding forensic certification of authenticity and should be utilized exclusively as decision-support evidence.*
