DOCVERIFY — VERIFICATION REPORT

AI-Based Document Tampering & Forgery Assessment Certificate

VERDICT: INCONCLUSIVE / REVIEW REQUIRED

Risk Level: MEDIUM RISK | Final Tampering Risk Score: **53.6%**

Document & Session Metadata

File Name:	alb_id_00_fake_6_25.jpg	**Verification Date:**	2026-10-18 16:47
Document Template:	Identity Document (Albania) [alb_id]	**Image Resolution:**	2167 x 1360 px
Color Mode:	RGB	**Inference Device:**	CPU

Multi-Modal Evidence Breakdown

Evidence Source	Signal / Metric	Score / Finding	Contribution
Global CNN (EfficientNet-B0)	Full-image visual texture anomaly	52.6% Fake Prob	Primary Base Signal
High-Res Patch Verification	Local uncompressed field inspection	8.5% Fake Prob	Micro-forgery Recovery
OCR Text Extraction	Character recognition confidence	0.63 Avg Conf	Typography Consistency
Field Formatting Checks	Date & alphanumeric structure	Anomaly Detected	Syntactic Prior
Multi-Modal Evidence Fusion	Calibrated logistic decision	**53.6% Risk**	**Final Decision**

Extracted Document Fields (EasyOCR)

Field Name	Extracted Text	Confidence	Status
surname	Agani	0.57	Normal
name	Adnan	0.97	Normal
nationality	ShaiptarelAlbaniana	0.59	Normal
birth_date	20-11-1991	0.72	Normal
expiry_date	1 9 0 9020	0.15	Anomaly
id_number	J11120296F	0.44	Normal

System Reasoning & Explanation

• Syntactic format anomaly detected in extracted date or alphanumeric fields.

LEGAL & RESEARCH DISCLAIMER: *This verification certificate was automatically generated by DocVerify, an academic research prototype. Results represent statistical inferences based on learned visual and typographical patterns. This report does not constitute a legally binding forensic certification of authenticity and should be utilized exclusively as decision-support evidence.*
