DOCVERIFY — VERIFICATION REPORT

AI-Based Document Tampering & Forgery Assessment Certificate

VERDICT: POTENTIALLY FORGED / SUSPICIOUS

Risk Level: HIGH RISK | Final Tampering Risk Score: **100.0%**

Document & Session Metadata

File Name:	N/A	**Verification Date:**	2026-10-18 19:52
Document Template:	Identity Document (Albania) [alb_id]	**Image Resolution:**	0 x 0 px
Color Mode:	RGB	**Inference Device:**	cpu

Multi-Modal Evidence Breakdown

Evidence Source	Signal / Metric	Score / Finding	Contribution
Global CNN (EfficientNet-B0)	Full-image visual texture anomaly	0.0% Fake Prob	Primary Base Signal
High-Res Patch Verification	Local uncompressed field inspection	0.0% Fake Prob	Micro-forgery Recovery
OCR Text Extraction	Character recognition confidence	0.85 Avg Conf	Typography Consistency
Field Formatting Checks	Date & alphanumeric structure	Valid	Syntactic Prior
Multi-Modal Evidence Fusion	Calibrated logistic decision	**100.0% Risk**	**Final Decision**

System Reasoning & Explanation

• Assessment derived from global feature maps.

LEGAL & RESEARCH DISCLAIMER: *This verification certificate was automatically generated by DocVerify, an academic research prototype. Results represent statistical inferences based on learned visual and typographical patterns. This report does not constitute a legally binding forensic certification of authenticity and should be utilized exclusively as decision-support evidence.*
